Founded in 1979, Action Hydraulics Ltd. has grown from 2 employees to a workforce of 18. We are the Greater Toronto Area's leader in hydraulic repair, sales and service and the preferred hydraulic service provider to the GTA's construction, transportation, industrial and public services sectors.

THE ACTION HYDRAULICS ADVANTAGE

Action Hydraulics' key differentiators are our size, our superior design capabilities and our ability to diagnose issues quickly, often at the jobsite itself. The throughput of our business, unmatched by that of smaller repair shops, minimizes our clients' downtime and lost opportunity costs. Furthermore, the economies of scale we enjoy enable us to offer competitive pricing.

**HYDRAULIC
PUMP, MOTOR,

**INDUSTRIAL
HARD CHROME
PLATING**

Hydraulic cylinder rods,
Valve spools, Plungers...

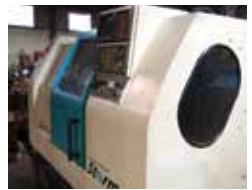

Action Hydraulics offers its clients pickup and delivery services, to assist in moving equipment to and from our facilities, with our own fleet of delivery vehicles. We also offer over the counter service.

FACILITIES

Action Hydraulic owns over 22,000-sqft in the heart of the GTA. To ensure that our service yields continuous quality results we have invested heavily in our facilities and in house machinery:

- 3 drive in bays to accommodate large diesel heavy equipment
- 2 overhead cranes
- Vertical & flatbed lapping machines
- Manual lathes and milling machines
- CNC lathes and milling machines (Master CAM)
- Saws
- Honing machines
- Hydraulic presses
- Nut crackers
- Hydraulic test benches
- Crimpers
- Grinders
- Dedicated chrome plating facilities
- Welders (MIG, TIG, STICK)
- Broad range of specialized tooling

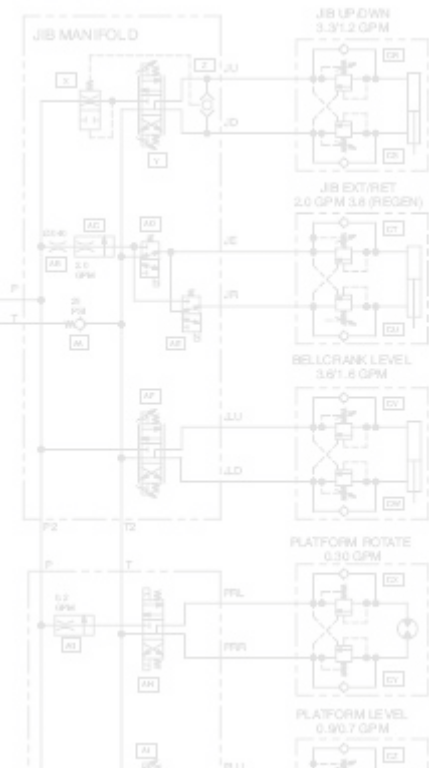

CAPABILITIES

With over 80 years of combined experience in solving problems related to cylinders, pumps, motors, valves, gearboxes and complex hydraulic systems, there is a huge wealth of knowledge, for our technicians to draw upon if they encounter a particularly difficult or persistent fault.

Our experienced staff of machinists, mechanics, hydraulic technicians, welders, designers and parts specialists, is capable of servicing our national and international clients through:

- Repairing, rebuilding and manufacturing all types and sizes of hydraulic cylinders
- Hydraulic pump, motor, valve and PTO refurbishment
- Building and repairing all types of custom and general production machinery including but not limited to hydraulic presses, injection molding machines and hydraulic power units
- Removal, repair, and replacement of hydraulic systems from mobile equipment at our facility
- Machining complex dies, custom gears, and hydraulic manifolds
- CNC machining (Master CAM)
- Low volume production of custom parts
- Babbitt resurfacing
- Rod straightening
- Grinding
- Polishing
- Industrial hard chrome plating
- Welding (MIG, TIG, STICK)
- Custom fabrication
- And much more.

SERVICE EXCHANGE PROGRAM

The service exchange program offers our absolutely quickest turn around time for customers that simply cannot afford to be late on projects, or delay their operations for even the fastest hydraulic repairs. Users benefit from receiving “like-new” hydraulic component replacements immediately. Participants of our exchange program may “exchange” a worn/used component towards the purchase of a remanufactured replacement. Our exacting standards deem that remanufactured parts meet or exceed OEM specifications.

With this service option, there is no need to wait for a component to be repaired, so customer’s productivity is maximized.

HYDRAULIC HOSE, FITTINGS, COMPONENTS AND ACCESSORIES SALES

Action Hydraulics is an authorized Parker hose and fitting distributor. We have strived to build a diverse inventory of hydraulic and pneumatic hose and fittings specifically tailored to suit the industries we serve.

We are also an authorized distributor of MP Filtri products. We stock MP Filtri reservoir / tank accessories, hydraulic suction and return line filters and pressure switches and controls.

Action Hydraulics is an authorized distributor of Total lubricants.
